

TAN BUI

Manager/Developer

I'm working at Goong Projects at the moment. I have been interested in coding since I was at high school. Code's my life and I always code, code.... However, I sometimes design some things for me or some mini projects. It helps to refresh my life. Now, I have 6 years experience in Website Design, Web Application Develop, Communications Design, and 4 years experience in Mobile application develop I want to learn more and improve my IT skills to discover myself.
